CSAW CTF 2023:

1. Baby's Third:
   a. Downloaded both files, the "readme.txt" and "babysthird".
   b. Used the commands "chmod +x babysthird" and "./babysthird" to run it, however it asked for a password.
   c. Since "babysthird" was an executable binary file, I used the command "strings babysthird" to extract whatever strings I could.
   d. After inspecting the output, the flag was found.
   e. csawctf{st1ng_th30ry_a1nt_so_h4rd}
